IRS Direct Pay

If you have already made a payment through Direct Pay, you can use the Look Up a Payment feature to view your payment details and status. You can modify or cancel your payment there until two business days before your payment date.

With bank account: www.irs.gov/Payments/Direct-Pay

This secure service allows you to pay your Form 1040 series, estimated tax payments or extension payments directly from your checking or savings account at no cost to you. You will receive immediate confirmation that your payment has been submitted. Bank account information is not retained in IRS systems after payments are made.

With debit or credit card: <https://www.irs.gov/payments/pay-your-taxes-by-debit-or-credit-card>

This secure service allows you to pay by internet, phone or mobile device. The Payment Processor will assess you the processing fees (amounts noted on payment page). You will receive immediate confirmation that your payment has been submitted. Account information is not retained in IRS systems or the Payment Provider systems after payments are made.

If you can't pay your balance in full, pay what you can now. You can apply for an [Installment Agreement](#) to pay the remaining balance. Entering into an Installment Agreement may reduce future failure to pay penalties.
